

Solidarity with Iranian workers!

“The Labour Representation Committee is an affiliate of Hands Off the People of Iran and I call on others to support its important work. With the war drums beating again in the Middle East and the imperialist pressure on the working

people of Iran growing daily, principled international solidarity is vital.

Hopi is at the forefront of that activity and deserves the backing of activists and organisations in our movement”

■ **John McDonnell MP**

Affiliate to Hopi

Model motion

This organisation notes that since 1979 the Iranian regime has been in low-level conflict with the USA, the UK, Israel, and other western powers and that recent increased bellicosity toward Iran openly threatening direct military attack, while ostensibly aiming to halt Iran’s nuclear programme is in reality intended to effect regime change.

This organisation recognises that sanctions against Iran are a form of warfare, that they primarily affect the Iranian working class, and that they help the Islamist regime to cohere its rule around reactionary ‘anti-imperialism’, increasing its power to combat working class opposition. Sanctions-produced inflation led recently to food riots that were viciously suppressed.

This organisation expresses its solidarity with the working class of Iran and opposes all military action against Iran. It calls for a nuclear-free West Asia and for the lifting of all sanctions against Iran.

This organisation resolves to affiliate to Hands Off the People of Iran (Hopi) and to collaborate in its campaigning work.

We want to support the work of HOPI!

- local organisation £25 ■ small national/regional organisation £50
- large national/regional organisation £100
